The International Conference on Medical Imaging and Computer-Aided Diagnosis

The conference where the latest information is presented by leading researchers in medical imaging, physics, computer-aided diagnosis, perception, image-guided procedures, biomedical applications, ultrasound, informatics, radiology and digital pathology, with an increased focus on fast emerging areas like deep learning, AI, and machine learning.

Abstracts Due:
8 November 2019
Submission Due:
27 December 2019
Author Notification:
6 January 2020

COMMITTEE

Honorable Chair: **Dr. Marek Michalewicz**, Deputy Director of the Interdisciplinary Center for Mathematical and Computational Modelling (ICM), University of Warsaw, Poland

Conference Chair: **Dr. Ruidan Su**, IEEE Senior Member, Shanghai Advanced Research Institute, Chinese Academy of Sciences (China)

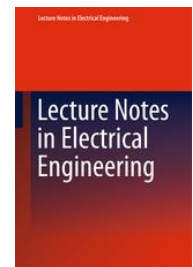

Program Chairs: **Dr. Han Liu**, Cardiff University (UK); **Prof. Feng Dong**, University of Strathclyde (UK)
Prof. Zakaria Belhachmi, University of Haute Alsace, France

TOPIC AREAS

Medical Imaging
Image Processing
Computer-Aided Diagnosis
Image-Guided Procedures
Robotic Interventions
Image Perception, Observer Performance
Imaging Informatics
Digital Pathology
Biomedical Applications in Molecular, Structural, and Functional Imaging
Machine learning, artificial intelligence
Cloud Computing and Big Data for Healthcare
Computational Physiology
Ultrasonic Imaging and Tomography

PROCEEDING

- All accepted papers will be published on Springer series "Lecture Notes in Electrical Engineering" (ISSN: 1876-1100) and will be submitted to the ISI Proceedings, EI-Compendex, SCOPUS, Meta Press, Web of Science and Springerlink for indexing.

 Compendex on
